Sprint 3 Report
Flsh
November 19th, 2017

<p align="center">Sprint 3 report</p>

Actions to start doing
- We need to complete tasks faster.
- Take into account research time.
- Creating a working demo by the end of the sprint.

Actions to stop doing
- We should stop overthinking research results and just start something to include to the code.

Actions to keep doing
- Keep messaging each other through our Facebook group chat.
- Keep the collaborative and productive team dynamic.
- Keep being on time to meetings and have something new to say.

Work completed/not completed
Work completed:
- Finalized data structure design
- Researched about custom markers and public toilet APIs.

Work not completed:
- We cannot see restroom locations on the map.
- US3 Test authentication.
- Connecting pages together and displaying them on the app.

Work completion rate
- Total number of user stories completed during the prior sprint: 1 user stories.
- Total number of estimated ideal work hours completed during the prior sprint: 30 hours
- Total number of days during the prior sprint: 14 days.
- For the previous sprint, the user stories/day and ideal work hours/day figures should be reported. For sprints past the first sprint, this section should also provide the average user stories/day and average ideal work hours/day figures computed across all sprints to date.
- The final sprint burnup chart for the previous sprint should be available for viewing in the lab and an email of this chart sent to the TA/prof.

Points scored
